

HANDEE

Cheese Cutters

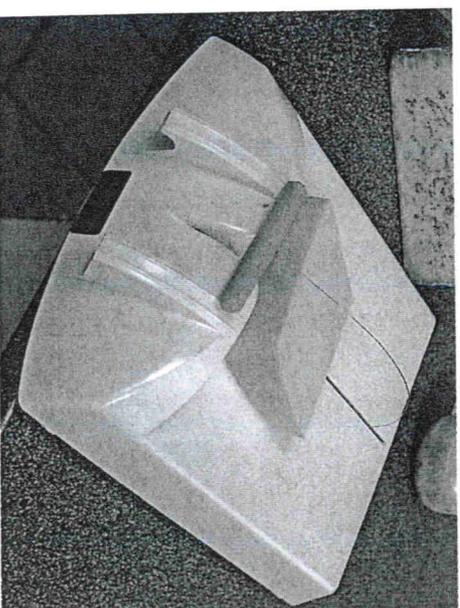

- Cuts cheese quickly, neatly, economically
- No crumbling, no waste
- Hygienic and safe to use
- Available in white plastic or stainless steel
- Patent floating wire slices smoothly through all types of cheese. Makes expert cutting easy
- After each cut, wire returns automatically to cutting position
- When not in use, handle is housed in retaining slots. Wire thus kept semi-taut and free from kinks
- Replacement wires fitted in seconds
- Extra hard white plastic or stainless steel base easy to wipe clean, hygienic and durable
- Stands on non-marking rubber feet
- Neat and attractive, the **HANDEE** adds to the smartness of any counter

Specifications

Plastic Model

Formed in one piece urea formaldehyde, this model offers a lightweight version suitable for all establishments. The material is completely resistant to chemical action from cheeses.

Whichever model is chosen, expert cutting is assured. Moreover, surfaces, whether plastic or stainless steel, can be quickly cleaned and no awkward corners exist where dirt can collect or bacteria can breed.

*Smooth easy action...
perfect cutting*
